

New Mexico Climate Change Advisory Group

Draft Agendas, Advisory Group And Technical Work Group Activities

MEETING ONE – July 27, 2005

- Introductions
- Purpose and goals
- History & status of state climate actions
- Review of the process
- Climate change science
- Emissions inventory & forecasts, including Black Carbon
- Modeling issues
- Opportunities & issues
- Technical work groups, next meeting agenda

Interim work group calls to cover: 1) suggested revisions to the inventory and reference case projections, 2) review and suggested modifications to the “long list” of policy options, 3) early ranking of options and suggested initial priorities for analysis for New Mexico Climate Change Advisory Group (CCAG) review, and 4) review of potential modeling and quantification approaches

MEETING TWO – October, 2005

- Recommended updates to inventories and baseline forecasts in preparation for final approval in January
- Discussion of “long list” of conceivable New Mexico policy actions
- Review and discussion of initial priorities for work group analysis
- Review of technical work group plans, including quantification
- Identification of cross-cutting issues

Interim work group calls to cover: 1) suggested final revisions to the emissions inventory and reference case projections, 2) suggested modifications to the list of initial priorities for analysis for CCAG review, 3) suggested policy designs for specific policy actions for CCAG review, 4) next steps on design and analysis of initial policy options

MEETING THREE – January, 2006

- Final agreement on inventories and baseline forecasts

- Updates and revisions to the list of policy priorities
- Discussion of policy design and implementation mechanisms for policy options
- Updates on technical work group plans for analysis of policy options
- Briefing on cross cutting issues and policy options

Interim work group calls to cover: 1) revisions to policy priorities and design parameters, 2) identification of potential implementation mechanisms for options, 3) next steps for analysis of options, 4) identification of cross-cutting policy needs

TRANSMITTAL OF FINAL INVENTORY AND REFERENCE CASE PROJECTIONS – January 30, 2006

MEETING FOUR – April, 2006

- Review of policy options list and cumulative emissions reduction potential
- Guidance to work groups on additions, deletions and modifications of options
- Identification of alternative policy designs and implementation mechanisms for work groups
- Review and revision of cross cutting policy options

Interim work group calls to cover: 1) revisions to draft final policy priorities and design parameters, including implementation mechanisms, for CCAG review, 2) next steps for draft final analysis of options and design alternatives for CCAG review, and 3) next steps on formulation of cross cutting policy options and mechanisms

MEETING FIVE – June, 2006

- Review of options list and cumulative emissions reductions potential
- Identification of consensus and non consensus options
- Identification of barriers and alternatives for non consensus options, with guidance for additional work on options to technical work groups
- Review of final report progress and plans

Interim work group calls to cover: 1) final revisions to design parameters, including implementation mechanisms for CCAG review, 2) final analysis of options, alternatives for CCAG review, and 3) final steps on formulation of cross cutting policy options and mechanisms for CCAG review

MEETING SIX – September, 2006

- Progress report on non consensus policy options list and cumulative emissions reductions potential
- Identification of consensus and non consensus options from remaining list

- Identification of barriers and alternatives for non consensus options, proposals for resolution by CCAG
- Discussion and final resolution of barriers and determination of consensus for remaining options
- Summary of the process, review of next steps for review and transmittal of the final report

Interim Work Group Activity - Technical team completes CCAG updates to policy options and draft final report language.

CCAG REVIEW OF FINAL REPORT – November 17, 2006

Technical team reviews comments and updates final report language.

TRANSMITTAL TO THE CLIMATE CHANGE ACTION COUNCIL – December 1, 2006
