## **Notice and Agenda of Meeting and Teleconference Call:**

### **Energy Supply and Residential, Commercial and Industrial Sector Technical Work Groups June 28, 2006, 9 AM – 1 PM**

---

The agenda for this Technical Work Group (TWG) meeting and teleconference call is as follows:

1. Call to order and roll call for Energy Supply (ES) and Residential, Commercial and Industrial (RCI) TWG members.
2. Review of April 26 CCAG Meeting #4 decisions related to cap and trade policy options.
3. Review Objectives for the seminar, including: (a) increased understanding of multi-state cap and trade, and (b) development of inputs for and outputs from CCAG modeling.
4. Education Session, including: Overview of what cap and trade is, how it works, experience to date.
5. Lunch on your own.
6. Inputs to and Outputs from Cap and Trade Modeling.
  - a. Inputs include: Geographic coverage, Level of the cap, Allocation method (consumption vs. production), Timing, Emissions forecasts for covered states and sectors, Cost Curves.
  - b. Outputs include: Greenhouse gas reduction potential, and cost per ton and aggregate cost of reductions for participating states.
7. Next steps on development of model inputs and outputs.
8. Call to the public and other announcements.
