 - Erik Aaboe
3. Center for Climate Strategies (CCS) staff:
 - David Von Hippel, Michael Lazarus
4. Other Attendees:
 - Jim Bacon, JGB Consulting
 - Denise Mulholland, EPA Clean Energy-Environment State Partnership Program
 - Lorna Greening

Background documents:

(unless noted, all posted at <http://www.nmclimatechange.us/documents.cfm>. Click on RCI)

1. Meeting Notice and Agenda
2. Meeting Summary from Call#9, July 26, 2006
3. Powerpoint presentation for meeting
4. RCI List of Priorities for Analysis and Policy Option Descriptions (including preliminary results of analyses of costs and benefits done thus far)

Discussion items and key issues:

1. **Review of 9th RCI Call Summary:** The results of the 9th RCI call (7/26/06), and the decisions taken during that call, were reviewed briefly and accepted by the TWG.
2. **Review of TWG and CCAG Revisions to Draft RCI Policy Options Descriptions, and Discussion of Quantitative Analysis To-Date of RCI Policies.**
 - Descriptions and analyses for Options RCI-1 through RCI-6 were reviewed by the TWG. The TWG suggested edits to text and, in some cases, inputs to quantitative analysis goals for some of these options, and accepted the options as modified.
 - The TWG discussed the analysis of RCI-7A, and suggested increasing the level of energy savings assumed to better reflect the intent of the option.
 - The TWG discussed RCI-7B, and expressed some concern about the prescriptive focus of the option. The TWG provided ideas regarding approaches to discussions of the option for use during CCAG meeting on 8/8/06.
3. **Comments from the Public.** Denise Mulholland of EPA described the meeting as having been “very lively”.

Next steps and agreements:

1. CCS team will update Policy Descriptions, and continue/revise work on quantitative analysis of RCI Policies based on input from the TWG and from the CCAG.
2. **Next TWG meeting: October 3, 9:30 to 11:30 AM, by teleconference.**
